**A CARD.**  
 RICHARD REID, of Montgomery county, is a candidate for Judge of the Superior Court of the Third District of Kentucky, subject to the action of the Democratic party.

HORATIO SEYMOUR is drafting his regular letter declining the presidency in 1884.

The prospect is that Knott, Jones, and Cantrill will be the candidates for Governor.

This week it is the St. Louis man who bets his money on the bobtailed nag, and loses it.

It is now a tight race between the army worm and Historian, for who shall have the wheat.

JEFFERSON'S heirs will hold the fort against those patriotic people who desire to disturb the last sleep of the old statesman.

In New York when a man becomes too luxuriously lazy to support his wife they give him six months on the island. It is a wholesome law.

It is said that John Robinson paid the Union Pacific company \$8,000 last year to agree not to transport any other circus than his during the present year.

If Mr. White, of Kentucky, had been older, or if Mr. Kelley, of Pennsylvania, had been younger, that row might have resulted in something. But there always seems to be an "if" to spoil the fight.

Ben Dunn, son of a prominent citizen near Bryantsville, has been held over in the sum of \$1,000 for drugging a Miss Borst, a beautiful young school teacher, with tincture of cantharides and ginger wine. The poisonous decoction caused inflammation of the throat and stomach.

An epidemic originating from the miasmatic influence of the air, is prevailing to a fearful extent in Louisville. It is called *muco-purulent* and attacks the eyes, causing them much pain, and destroys the sight in a day or two, if not promptly treated with great science. The best theory is, that a floating germ in the air, which comes from the sewers, is the prime cause of the disease. At present several hundreds of persons are suffering from the disease, to say nothing of most all the inmates of the several hospitals, who are all attacked. Several persons have lost their eye-sight. The same plague pervaded London, Paris and Egypt, in 1808. Scientists say that it is an indication of cool weather for the Summer.

For the benefit of the thousands of suffering citizens who are doomed to agonize in inconsolable-ness in consequence of the new history of Bourbon, Scott, Harrison, and Nicholas not being now nor never will be within their grasp we will with much joy throw upon the world the fact that, FRANCIS LOUIS MCCHESENEY, the editor and historian, is of Scotch descent, and his grandfather was on board of a war vessel with Francis Barton Key, when he wrote the "Star-Spangled Banner." The aforesaid editor also memorized and repeated 8,208 verses from the Bible in three years while at College, and always slept with a testament under his pillow. Mr. MCCHESENEY is also a "Democrat."

# Oh, Ye Suckers!

AFTER a short season of rest, the distinguished citizens of the Blue grass region have again been taken in on the history business. A few short years ago Richard Collins, the historian, after many years of labor and untiring zeal, revised and published two volumes of State and County history. He sold the two volumes bound in library style, for twelve dollars and met with ill success.—only seven subscribers could be found in Bourbon. It was a book of much merit, and should be found in every household, but people wouldn't take hold of it—they wanted to be humbugged, and it wasn't long ere a sharper came along and humbugged hundreds to the tune of from \$25 to \$100 each, on a cheap, shoddy history of eminent men of the State. On delivery of the books there was lots of squealing, and hard mule kicking, and suits were brought against many subscribers for the price of the books.

A few years sped by again, and the Chicago history flend came along with a motley gang of underlings from Illinois, Ohio, and Indiana, who, in a few weeks' time, threw on the market another history, entitled the "History of Bourbon, Scott, Harrison, and Nicholas counties. It contains a few historical sketches from Chinn, Perrin, and McChesney, (with their names signed to their respective sketches)—a few woodcuts of individuals and landscapes at a cost of from \$75 to \$120 to the subscribers, and their short biographical sketches, thrown in for good measure. In other words, it is a society "ring" history, that excluded no one from the ring who would subscribe for the book at \$12 subscription free. It ignores the merit of nonsubscribers, and applauds the subscriber in his own terms, according to his vanity, egotism, and money.

To say that there is high kicking going on in Bourbon and Harrison, where it has been delivered, puts it mildly indeed. Many subscribers claim to have been made subscribers unwittingly, simply by endorsing historical records that were read to them in manuscript. Many bona-fide subscribers are acknowledging the corn, and are selling out at whatever they can get, while some are offering to give away, or have burning matches.

Our advice is, however, for those who are bona-fide subscribers, to stand the racket manfully, pay for the darned thing, subscribe and pay for the Bourbon News, and keep your eyes skinned in the future.

# Carlisle Items.

Bob Potts has gone to the Hot Springs, Ark., for his health.

History says that Sam Waugh was born Nov. 28th 1838. He's a "Democrat" and "Presbyterian."

Harvey Howe and S. W. Hopkins attended the closing exercises of the Kentucky Military Institute.

It's a historical fact that "Bunk" Stewart walked and drove cattle to New York, and made the trip in 67 days. He's also a Democrat.

The new history publishes F. E. Congleton as having married Hannah C. Cummings, instead of Hannah C. Comingo, of Harrodsburg.

Dr. Dills' buy-oh!-graphy is written up from the bright side in the new history, but the News man has a wagon load of correct manuscript put away on ice.

History shows that Tom Kehoe was mustered into the Federal army at the age of thirteen, and was probably the youngest soldier ever mustered into the Federal service.

Harvey Howe reports millions of army worms about Moorefield. After invading one man's field of corn, they crossed the pike in a regular line of battle and attacked a new field.

Brevinton tells of a species of worm called the "bonnet worm," which grows in a thimble arrangement on a species of lake flag, in the Florida lakes. They are for lazy fisherman, who use them for bait while fishing.

The new history slighted Charlie Munger, in not mentioning his career as journalist on the Camp Meeting Daily, but it kind of makes things square with the wicked world by making the astounding announcement that he is a "Democrat."

ran away without leaving its card, as all the world knows only too well.

Brewington caught 45 lbs of fish with a hook and line in 14 hours in Florida.

Telephone poles between here and the Blue Licks are now being erected.

Brewington says they call "whisky straight" "barefooted" drinks, down in Florida.

Brewington caught a "blow" fish in Florida, but the fish soon got ashamed and quit blowing.

History reveals the fact that Ed. Boyd rose from the position of cowboy on the mud roads of Pennsylvania, to the rank of Major and Quartermaster in the Federal army. The ambitious youth only started in business scraping the hides of dead cows, like Grant, he might have advanced in the scale of army promotion ahead of that old chief.

# AROUND THE CIRCLE.

At Owingsville last Thursday about four o'clock James Monly and Wm. Green, two farmers living near town, got into a fight at the latter's home in which Green struck Monly on the head with a stone, from the effects of which he will most likely die.

We stop the press to say that Dr. Keller gave us his history for a year's subscription to the News, and advises everybody else to do the same thing.—LATER: Sold to Dr. Ed. Ray for two dollars cash.

# Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted to speedily and certainly cure for Fever and Ague, Chills and Fever, Intermittent or Spill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severe symptoms, which terminate in the ague paroxysm, succeeded by high fever and profuse perspiration.

It is a startling fact, that quinine, arsenic and other poisonous minerals, form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own drug poison in the system, producing quinsism, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. Ayer's Ague Cure thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, Ayer's Ague Cure, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to directions.
